INFINITY BY PRISMATIQUE

# I N F I N I T Y     T A B L E S

The complete table system, Infinity introduces boundless possibilities into today's dynamic, ever evolving workplace. Infinity promotes productivity, supports teamwork and complements existing and developing office technologies.

From their finely judged shapes and dimensions to their attractive price points, Infinity Tables provide ultimate solutions.

## M E E T I N G

Engaging aesthetics and technical sophistication define Infinity Meeting Tables. The graceful curvature of their sleek styling conceals a range of power and data connections. These performance-enhancing tables come in a variety of shapes and sizes with fixed or height-adjustable Column or T bases.

## T R A I N I N G

Infinity tables are perfectly suited to training and seminar rooms. Permanent or mobile, they offer three wire managing base designs, two functional modesty panels, flip-top and folding base options and connections to power and network modules.

## M O D U L A R

Supreme flexibility is the key to Infinity Modular Tables. They can be configured and reconfigured in limitless ways to suit almost any relevant function-meeting, training, seminar and more. Elegant styling and affordability only heighten their attraction, as do their storage options. Removable, folding, height-adjustable or fixed bases facilitate easy stacking on available Table Carts.

## F U N C T I O N A L S

Available in many unique shapes, Infinity Mobile Function Tables maximize the effectiveness of training and presentations.

MEETING TABLES

Promoting creativity and high performance in fast-paced office environments, Infinity Meeting Tables feature graceful curves and rounded corners with electronic connections to power/data/voice modules concealed under Access Doors. Shapes and sizes range from 42" squares and circles, to 240" x 60" rectangles and boats. Available with fixed or height-adjustable Column or T Bases and with glides or locking casters.

FINISHES

Include plastic laminate tops with reeded vinyl edge or veneer tops with wood reeded edge in various species and stains.

BASE OPTIONS

Include extruded aluminum Column base or aluminum T base with glides or locking casters and choice of 21 colors.

WIRE MANAGEMENT

Dual-cavity column accommodates power and data wires hidden by removable convex cover strip in matching color and ribbed pattern.

144" x 48" Rounded Boat-Shape meeting table, in Natural Maple and Silver Colora T bases, with access to power/data/voice modules. Also available with Column bases.

## MEETING TABLES

**ARTICULATING MEETING TABLES**

Perfectly suited to multi-purpose rooms, Infinity Articulating Meeting Tables feature graceful curves and rounded corners, height adjustability, mobility and a range of concealed power and data connections. Comprised of overlapping height adjustable Center and End Tables, the various configurations range from conventional conferencing with up to 14-chair capacity to articulated V shapes for video-conferencing to typical classroom layouts for presentation and seminars.

Conventional conferencing configuration comprised of slightly pulled-apart T Base Center Tables in clear Maple and 'over' positioned T Base End Tables shown in Dark Walnut. Bases, modesty panels and Interface Power/Comm. Unit covers are in Silver Colora. Overall Dimensions: 164" x 78"

**ADJUSTABILITY**

Height adjustable bases (27" - 31") are also removable without tools for easy storage.

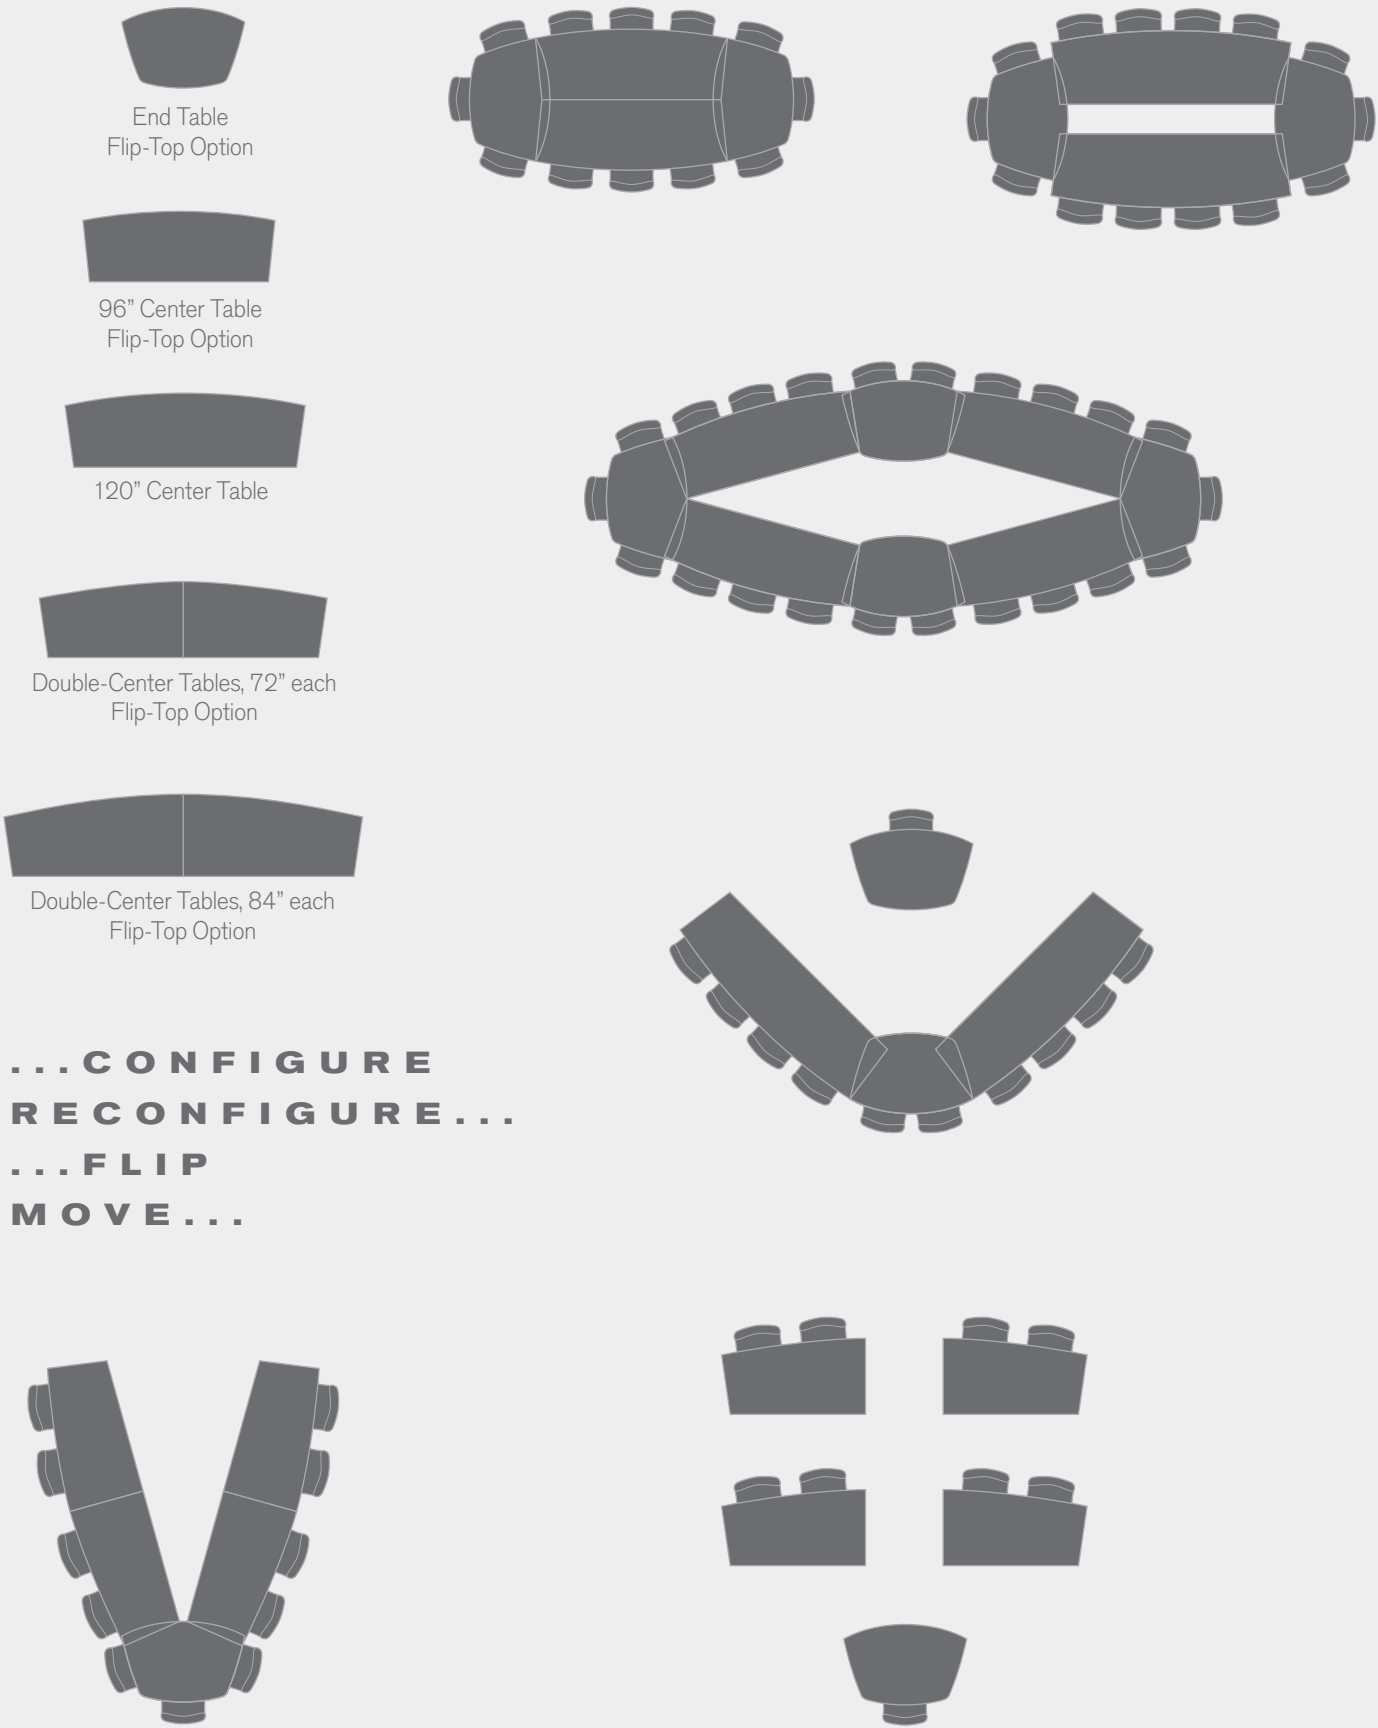

**COMMUNICATION**

Interface surface technology units provide connections to power, network and presentation modules. Flush fit access doors are available in 21 Colora colors.

TABLE CONFIGURATIONS

Scale: 1/8"– 1'

ARTICULATING MEETING TABLES

**ABOVE:** Articulated Center Tables with Modesty Panel and End Table in over position shown in V shape layout. Clear Maple Center Tables are contrasted with a Dark Walnut End Table. Bases, modesty panels and Interface Power and Communication Unit covers in Silver Colora.

Extruded aluminum modesty panel available with all the Center Tables are finished in all Colora colors.

Double-engaging flip-top mechanism for End and Center Tables up to 96" wide. Flip and nest.

TRAINING TABLES

Modular Infinity Training Tables in various dimensions can be linked with one another or with Pie bridge tops to create optimal configurations for maximizing productivity during computer training sessions or presentations. Wires run through optional fixed or height-adjustable Column or T bases into an extruded modesty panel with a wire tray. Custom Powered J Channel uses an 8-wire 3-circuit electrical system to distribute power and data from one table to the next.

Training Tables with C and T-base designs feature 3" lockable casters, heavy-duty flip-top and folding base mechanisms and two types of aluminum modesty panels engineered to perform distinct functions.

WIRE MANAGEMENT

Column C- and T-base designs incorporate vertical wire management.

CONNECTIONS

Power and network connections are integrated to table surfaces utilizing Interface Jr. and ? units.

FLIP OPTION

Flip-top tables with fixed J modesty and folding Flat modesty are nested in equal amount of space.

FOLDING MODESTY

Flat Aluminum Modesty Panel is placed into position or folded over table bases by soft hand manipulation with no tools required.

**MODULAR TABLES**

Infinity is the ultimate table solution for today's dynamic and ever evolving workplace. The collection comprises of elemental and gracefully curved modular shapes that are easily reconfigured, linked together and provide for electronic connections. When not in use, they quickly flip and fold for storage. Infinity Modular Table collection promotes creativity and high performance in fast-paced environments.

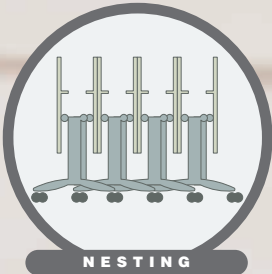

Conferencing configuration comprised of 2 Half Rounds and 4 Wave Tables. Table tops are finished in Clear Maple; bases and interface Jr. Power/Communication access doors are in Silver Colora. Overall Dimensions: 180" x 72"

**FLIP OPTION**

Flip-top and Mobility are standard options for all modular table shapes. Equipped with 3" dia. locking casters, tables can be flipped and nested.

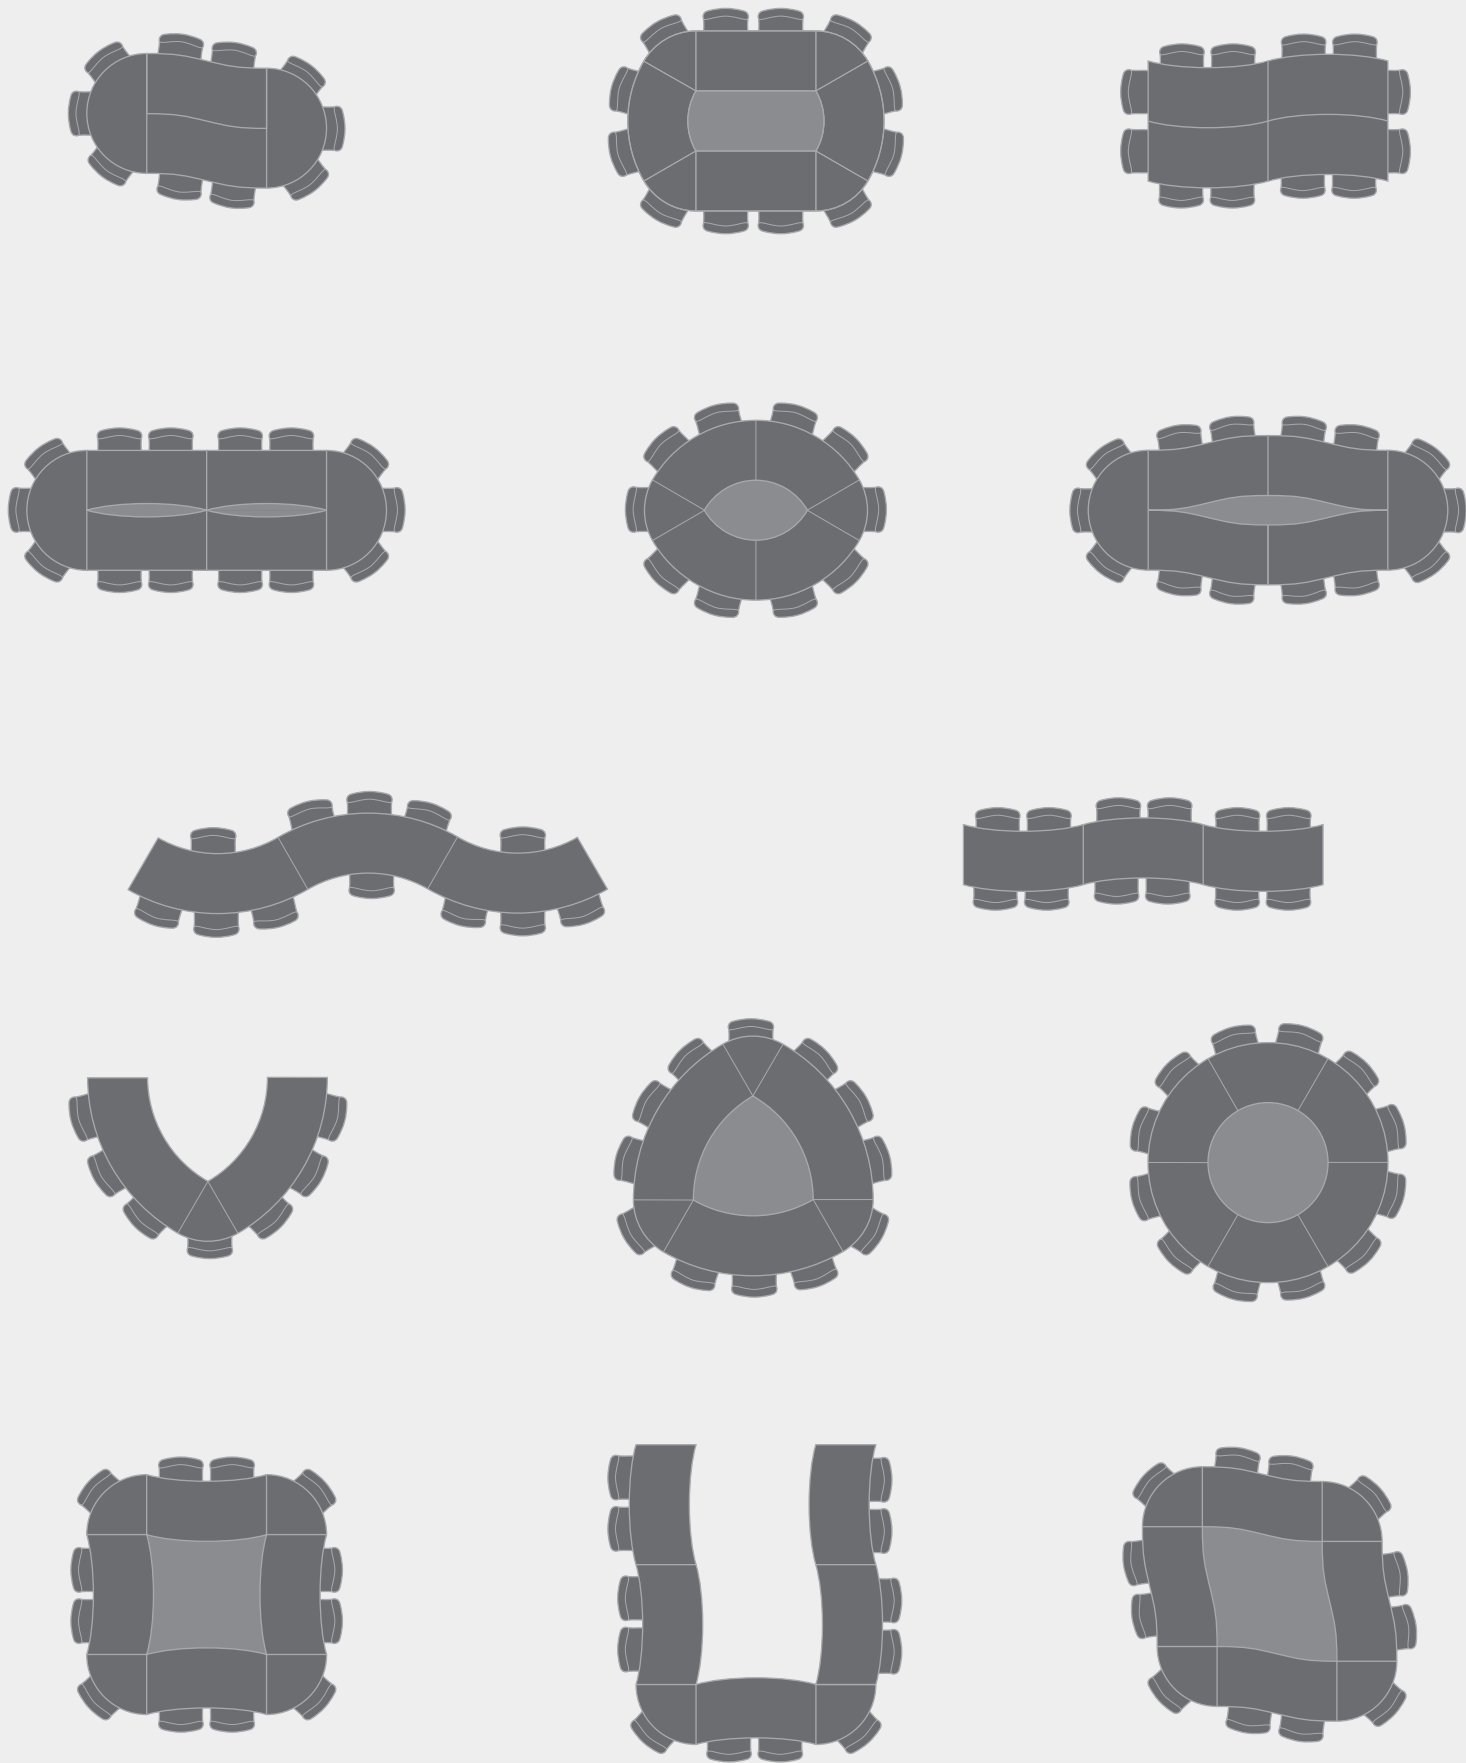

**NESTING**

Alternate space saving nesting allows storage of more tables in smaller spaces: 8 tables in 72".

TABLE CONFIGURATIONS

Scale: 1/8"– 1'

MODULAR TABLES

**ABOVE:** U-Shaped modular configuration in laminate and Silver Colora T bases.

FINISHES

Include plastic laminate tops with reeded vinyl edge or veneer tops with wood reeded edge in various species and stains.

BASE OPTIONS

Wire Managing Column and T bases with glides or locking casters are available in all Colora finishes.

POWER/COMMUNICATION

Interface Jr. Power/Communication Unit contains 2 outlets and 2 voice/data/presentation jacks. Flush fit access door is available in Colora colors.

MODULAR TABLES

Scale: 1/8"– 1'

In dynamic spaces, people come and go... meetings come and go. And so do Infinity Modular Tables. They are easy to set up, configure, breakdown and move away. In addition to the flip-top option which allows nesting, all Infinity table bases are removable without tools and many shapes feature folding T-bases. Three available Table Carts are utilized for storage.

NO TOOLS

Fixed or height-adjustable Column and T bases are removable without use of tools for easy storage.
