- > Surface Power and Communication Units, wire management and other options are listed on pages 10 & 11.

FINISHES

Plastic Laminates

High Pressure plastic laminates in solids, patterns and woodgrains from Formica, Wilsonart, Nevamar and Pionite are available in matte finishes and at standard list prices. Premium priced laminates within these lines are subject to an upcharge. For these or laminates from other manufacturers, such as Laminart or Abet, please call us for a quote. Laminate tops have Square or Bevel profile wood edge with 1/8" dia. COLORA inlays.

Colora

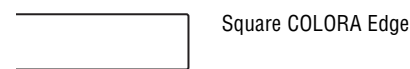

COLORA is a textured polyurethane material applied to MDF board in two steps. It is scratch-resistant and stain proof. Although highly durable, COLORA surfaces are not as hard as laminates. COLORA is leather-like in appearance and seamless. It is applied to table tops and edges. All table tops in plastic laminates, with wood edges feature 1/8" dia. inlay in matching or contrasted COLORA color. COLORA is available in 21 standard colors – refer to COLORA CARD. Custom color charge is \$275.00 NET per color mix.

Wood Veneers, Wood Edges

Veneer tops and hardwood edges are flat cut species of Maple, Cherry and Walnut offered in numerous stains. Refer to VENEER CARD. Custom stain charge is \$198.00 NET for set-up and \$44.00 NET per unit. Prismatic offers all regular and premium veneers which are readily available – please inquire for pricing. Veneered surfaces are semi-open and finished in a low-medium sheen and clear catalyzed lacquer.
